BARBERING

GENTS' CUT

£3.00

Today's student barbers are learning to become experts at what they do, and the clients they serve expect it.

Their work not only involves executing a precise haircut, but also performing any number of techniques to the face, scalp, beard, and moustache.

Barbers trim, cut, shape, and taper hair using scissors, razors, clippers, and combs.

When you walk out of the college barber shop with a sharp haircut. you'll be glad you did.
